EXPERIENCE

ArabiaGIS, Lebanon

Head of Project Office / Project Manager

2012-Present [5 years]

Head of Project Management Office at ArabiaGIS, my duties start from the inception phase, to the budgeting, planning, controlling and the delivery phase. My core role functions are:

- Managing medium to large scale international software projects.
- Deliver high-profile projects within expedited time frames while meeting all business deliverables.
- Prioritize, allocate, and follow up on tasks to project resources
- Prepare software concepts, pitch solutions and respond to RFPs.
- Engage with customers to analyze and collect user, business, and, system requirements.
- Prepare and Present analysis, and training documentation.
- Providing consultancy in Software Architecture and Design and Coding best practices.

Senior Software Developer and Solution Architect

2008-2012 [4 years]

Working as Software Architect, Developer and Project Leader, I was mainly responsible of the following tasks:

- To schedule, lead, achieve and follow up projects.
- To perform business, functional and technical analysis and writing technical documentation.
- To develop WPF, Silverlight, Web, Mobile and GIS applications.
- To design software solutions and select technologies and design patterns.

Sokin (Ashour Group), Congo

Software Developer

2006-2008 [2 years]

Working as enterprise applications developer at Sokin:

- Develop web and desktop applications
- Perform requirements analysis and documentation
- Participate in System Designs and documentation

EDUCATION

2006 Lebanese University - BS in Computer Sciences
