Beirut , Lebanon - 00961 3 926130 - jaftalks@icloud.com - jaftalks.com

PROFILE

Long experience in the software development field with extensive experience in project management and software development life cycles. I have managed software projects in the private, public and non-profit sectors and have worked on international software projects across a range of industries in Africa and the middle east.

Project Management – PMP – Agile Scrum – Business Analysis – Requirements Management - Software, Web and Mobile Development - Software Architecture.

EXPERIENCE

ArabiaGIS, Lebanon

Project Manager — 2012–Present [5 years]

Project manager at ArabiaGIS, my duties start from the sales phase, to the budgeting, planning, controlling and the delivery phase. My core role functions are:

- Managing medium to large scale international software projects.
- Deliver high-profile projects within expedited time frames while meeting all business deliverables.
- Prioritize, allocate, and follow up on tasks to project resources
- Prepare software concepts, pitch solutions and respond to RFPs.
- Engage with customers to analyze and collect user, business, and, system requirements.
- Prepare and Present analysis, and training documentation.
- Providing consultancy in Software Architecture and Design and Coding best practices.

Senior Software Developer and Solution Architect — 2008-2012 [4 years]

Working as Software Architect, Developer and Project Leader, I was mainly responsible of the following tasks:

- To schedule, lead, achieve and follow up projects.
- To perform business, functional and technical analysis and writing technical documentation.
- To develop WPF, Silverlight, Web, Mobile and GIS applications.
- To design software solutions and select technologies and design patterns.

Sokin, Congo

Software Developer — 2006–2008 [2 years]

Working as enterprise applications developer at Sokin:

- Develop web and desktop applications using .NET
- Perform requirements analysis and documentation
- Participate in System Designs and documentation
